

WILD THING

WINTER 2020 INJECTION // SNEAKER CAPSULE

“ To make something great,
your technical skills need to be
on point. If you don't understand
the mechanics of a sneaker,
if you're not up to speed on the
latest material science,
you can't credibly play in the
sneaker game ”

VINCE LEBON
FOUNDER AND HEAD DESIGNER OF ROLLIE NATION

THE SNEAKER FREAK

Fresh home from a design sabbatical Stateside, Vince has spent three years immersing himself in sneaker design & culture. Rollie isn't entering the sneaker category on a whim.

Sneakers are an absolute passion for Vince and our entry into the market had to be nothing less than inspired and technically on point.

NEW MATERIALS

Rubberised

More durable than leather, high-performance appearance and water-resistant.

Vegetable Tan

Offering a stiffer, firmer and stronger leather, it has a good holding and a better moisture absorption. It also has natural colours, so it gets deeper and more nuanced shades. It has the advantage of aging well and to embellish over the years with a nice patina.

Cracked Flower

A trend based material, with a print on genuine leather.
